Education

MSc Computer Animation

University of Kent 2007-2008

- Working with Autodesk Maya, developed skills in 3D modelling, rigging, animation, texturing and rendering.
- Gained great insight into every stage of film production, from conception to final editing.
- Producer for 3-day film project involving all 35 students from the Computer Animation and Visual Effects courses.
- Final project - worked with a team of 4 to write and complete a 3-minute animated film, shortlisted for Anifest 2008.

BSc Multimedia Technology and Design (1st Class Honours)

University of Kent 2004-2007

- Website and interaction design, programming languages, photography, and film making. Completed several group film projects including a 10-minute documentary about the impact of students on the local community.
- Final project - team manager - working with Howletts Zoo, our 4-person team produced an edutainment CD for KS2 schoolchildren.

A Levels: English Literature - A, Biology - B, Physics - C

9 GCSEs (A*-A) including Maths and German at A*

Bromley High School GDST

Additional Skills

'05 - '09: Ran own online business designing, producing and selling clothes worldwide for high-end, 'Asiatic ball-jointed doll' market. Photographed and marketed products via specialist sites. Also imported and re-sold related items online, and at venues such as the Japan Expo at London ExCel.

I am a keen photographer and sell my pictures through Getty Images.
